Santa Fe 2.7 V6

Defying boundaries

Introducing the Hyundai Santa Fe, a 4WD that combines the handling of a conventional 2-wheel drive with a taste for off-road adventure. The Santa Fe is the Sports Utility Vehicle (SUV) to take you places. Around town or on country lanes, you'll find it tackles your particular lifestyle with enthusiasm. If you're a sports fanatic, you need somewhere to stow your equipment or hitch your dinghy. If you have a young family, you want extra safety features plus room for all the gear. And everyone wants a car that looks this good.

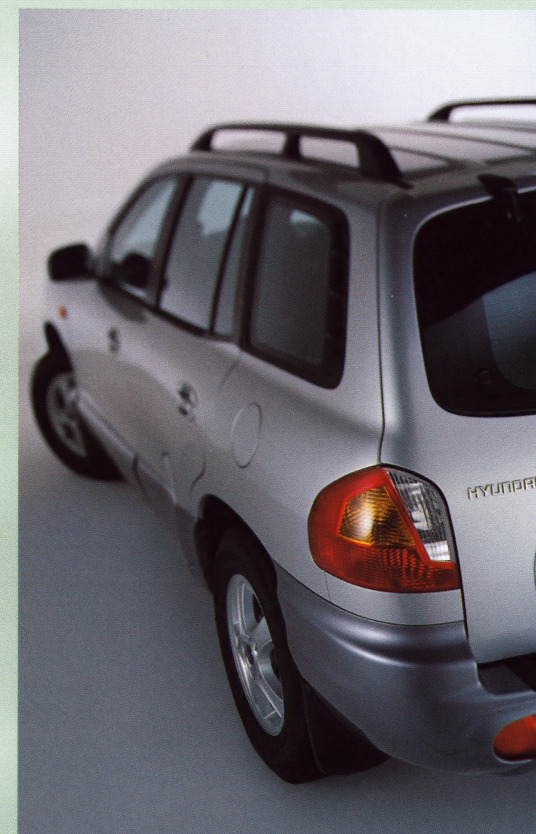

The SUV is designed for light off-road conditions and costs less to purchase, run and maintain than a standard 4x4 off roader. And with the Santa Fe, as you'd expect from Hyundai, you also get modern styling, practicality and a long list of standard features and equipment; plus Hyundai's five year warranty, the UK's first across an entire range.

Santa Fe 2.7 V6

Individuality

If you're interested in the Santa Fe, you're more likely to blaze your own trail than follow the crowd. Yes, you want the power and practicality to take you off limits, but you also want a car with terrific style. So you'll be struck by the Santa Fe's muscular good looks and rugged individuality. Clearly larger than its competitors, its sweeping lines convey a flow of power from front to rear. 16-inch alloy wheels are standard and wide tyres and high ground clearance give the Santa Fe real presence, on or off-road.

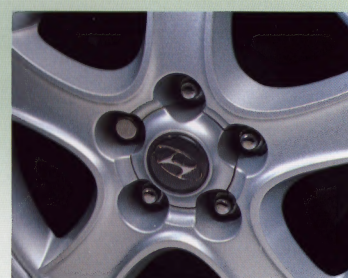

The Santa Fe has real presence, on or off road

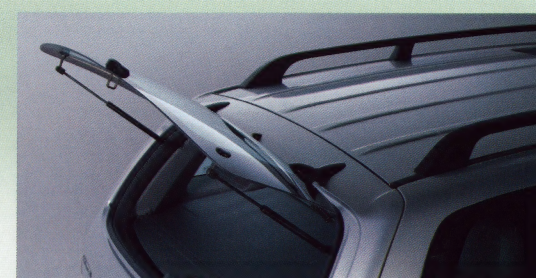

Large mesh grille helps project the Santa Fe's strength of character

Front fog lamps are standard on all models

Sturdy 16-inch alloy wheels are smart and practical

Roof rails are standard, and flip-up glass in the tailgate gives easy access

Comfort zone

It's no secret that Hyundai engineers approach the interior design of their vehicles as both a science and an art. The Santa Fe is no exception. Designed for optimum comfort and ergonomic ease, the 'wraparound' cockpit gives the driver a superb view of the road. The height-adjustable seat and adjustable steering column help to ensure a comfortable driving position.

The instrument cluster is clean and classic, with well-placed, responsive controls. An AM/FM CD radio with RDS comes as standard with rich sound delivered through four speakers. A 12-volt power outlet in the centre fascia makes use of a mobile phone or laptop easier when you're parked, and there's another in the boot for a fridge, for example.

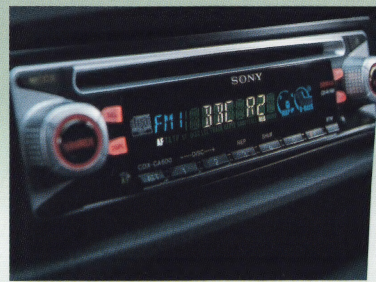

Top grade materials and exacting workmanship are evident throughout. For an extra touch of opulence, luxurious leather seat facings and steering wheel are standard on the 2.7 V6, and the interior colour on all models is varied – beige or grey – to complement the exterior colour.

Leather-covered steering wheel on 2.7 V6 models

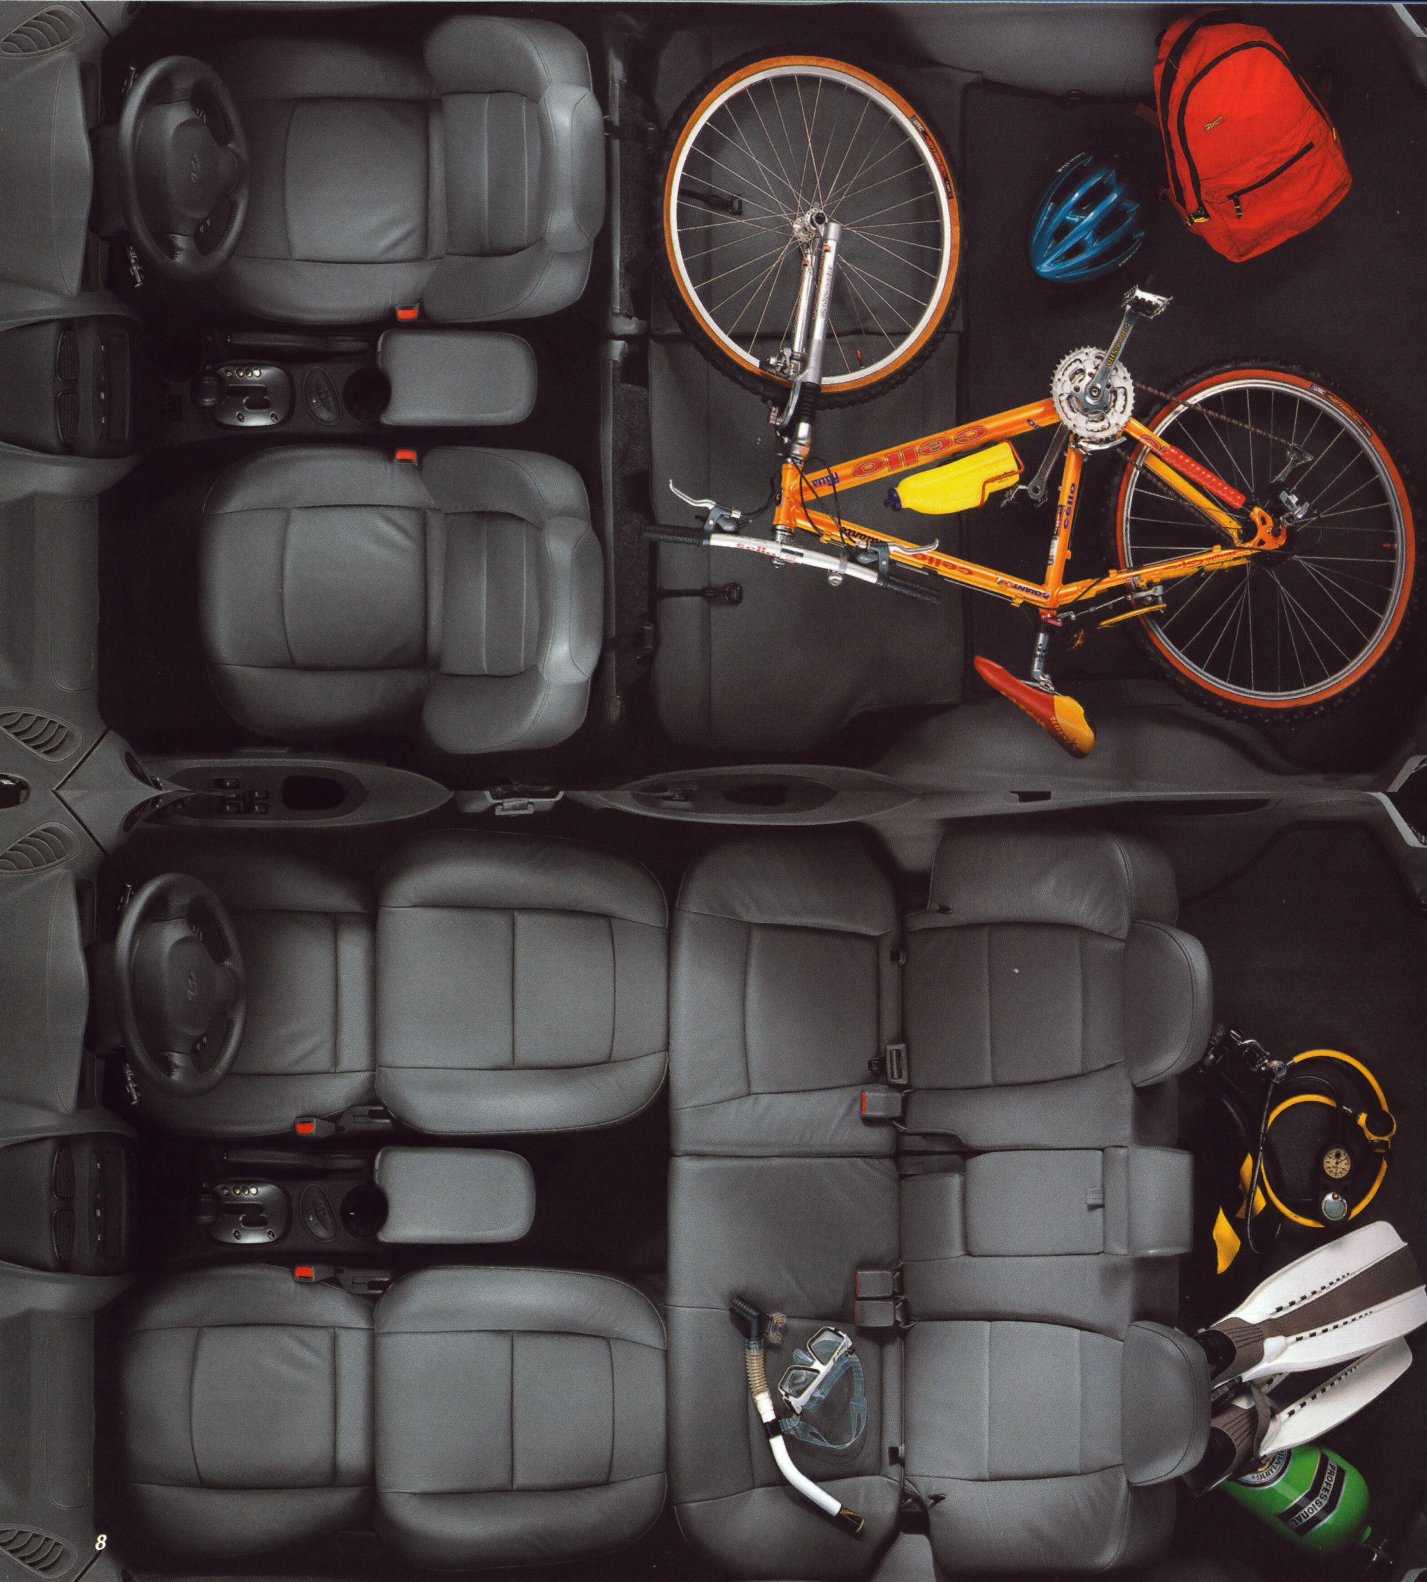

Air conditioning with integral pollen filter is standard on all models

AM/FM CD radio with RDS provides quality in-car entertainment (unit may differ from that shown)

Space efficient

As you'd expect, the Santa Fe provides spacious and extremely practical accommodation. With seats generously sized, there's still abundant head and leg room for driver and passengers alike. Front seats are fully reclinable while rear seats also recline and split fold 60/40 to make it easier to accommodate larger cargo items or sports equipment. The tailgate provides ready access for heavy-duty loading operations, and its convenient flip-up window means you can quickly stow or retrieve smaller items without opening the tailgate. Inside you'll find massive capacity, so bike or surfboard, it all goes in.

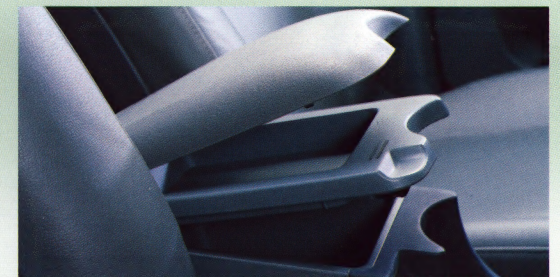

Standard storage features include a lockable glove box, ticket tray, coin holder, a centre console with two storage bins under the armrest and built-in cup holders, plus an overhead sunglasses holder. There's a special storage tray under the front passenger seat and map pockets and bottle holders on front and rear doors. In the back, a luggage net holds smaller loads in place and under the boot floor a sectioned tray can hide valuable items from prying eyes. Because, let's face it, everyone will be looking.

Sectioned tray under the cargo area keeps small or valuable items out of sight

The overhead console includes a useful sunglasses holder

Dual storage compartments are cleverly designed into the centre console

Santa Fe 2.7 V6

Passenger protection

Nothing is more important to us than you, so all Hyundai vehicles are equipped with a wealth of passenger protection features.

The Santa Fe's first line of defence is a steel 'safety cell', designed to deform in a controlled way to help minimise impact force in a collision. ABS helps to keep you on the road by preventing the wheels from locking when you brake hard. EBD (Electric Brake force Distribution) distributes braking force proportionately for balanced braking. Combined with the limited slip differential, this increases control on wet or slippery surfaces. In a serious accident, an automatic fuel cut-off system reduces the risk of fire by turning off the fuel pump to reduce fuel leakage. Both driver and front passenger have the protection of airbags with seat belt pre-tensioners and load limiters to help reduce the risk of chest injury.

Standard security systems include child-proof rear door locks while an engine immobiliser and remote central locking with anti-theft alarm help to provide peace of mind.

Santa Fe 2.7 V6

Power plant

Power is not a problem in the Santa Fe, however you want it delivered. You have a choice of two petrol engines – 2.4 or 2.7 litre – or a 2.0 litre turbo diesel version. The 24-valve 2.7 V6 engine delivers the highest power and torque of any similarly sized SUV, an all-aluminium block ensuring an excellent power to weight ratio. The 16-valve, 2.4 litre engine is powerful and economical, but if you prefer the extra economy of a diesel, the Hyundai 2.0 litre turbo charged unit is efficient and reliable. Manual 5-speed transmission is standard on 2.4 and 2.0 TD models, with the advanced H-matic transmission standard on the 2.7 V6 and an option on the 2.0 TD.

The sophisticated suspension will handle anything you're likely to meet in all but the roughest conditions, providing a soft, gentle ride with precise control. The full time 4WD system employs a double differential unit with viscous coupling that automatically apportions power to the front or rear for maximum traction; and on slippery road surfaces the rear limited slip differential helps prevent wheel spin by transferring power to the wheel with the most traction.

Santa Fe 2.7 V6 with accessory bike rack

Santa Fe 2.0 TD

Diesel economy

If what you want from your engine is even greater fuel economy and durability, diesel provides the answer. The Santa Fe's 2.0 litre, turbo-charged unit uses common rail technology to achieve smoother running, reduced noise levels and, especially important in today's environmentally conscious world, lower NOx (Nitrogen oxide) emissions. An intercooler is also fitted for even more efficient operation.

With overall fuel consumption of just 7.6 litres per 100 kilometres (37.2mpg), Hyundai's diesel engine is impressively frugal. But economy has not been achieved at the expense of performance, with a more than respectable 0-62mph time of 14.9 seconds and a torque curve that promises healthy pulling power even at the lower end of the rev range.

The Santa Fe 2.0 TD enjoys the same comprehensive equipment specifications as the 2.4 petrol model, so extra economy comes without any sacrifice of comfort.

Advanced H-matic transmission is an option on 2.0 TD models

The air intake for the intercooler adds to the Santa Fe's rugged looks

The Hyundai 2.0 litre common rail diesel engine with turbo charger and intercooler

Accessory range

Every driver needs different features on their car, so Hyundai has developed a range of complementary accessories to cater for the particular requirements of Santa Fe owners.

Practical, stylish and, most important, designed to become an integral part of the car, Hyundai accessories add a personal touch to your Santa Fe's looks and make motoring even more comfortable and enjoyable.

There are functional items such as mat sets, headlamp protectors, running boards, door scuff kits, a dog guard and towing equipment. There's also a selection of versatile, easy-to-fit carrying equipment for skis and bikes and, to subtly change the look of your Santa Fe, how about a set of wheel arch trims?

For full information on Santa Fe accessories, please consult your Hyundai dealer.

Your easy finance options

When you've chosen your Santa Fe, we can help you purchase it with just the right finance plan to meet your particular budget and circumstances.

Hyundai Car Finance offer a full range of financial products which can be arranged through your Hyundai dealer enabling you to complete your whole purchase under one roof.

It's no wonder that many customers use our specialised car finance products instead of other lenders, or indeed their own savings.

Sequences

Defer a percentage of your loan until the end of your agreement, leaving you with low monthly payments and a number of options at the end.

Hire Purchase

Pay an initial deposit, followed by equal monthly instalments over your chosen period.

Lease Purchase

Similar to Hire Purchase, but with lower monthly payments due to a larger final payment.

Personal Contract Hire

A rental product which includes service and maintenance cover. At the end of the agreement the vehicle is simply returned.

To provide additional peace of mind the following insurance products are available for all finance products.

Payment Protection

Choose various levels of cover to meet your repayments in the event of a wide range of unexpected circumstances.

Gap Insurance

Protect any shortfall between outstanding finance liability and insurance company payout in the event of your car being written off in an accident.

For further details and quotations, please ask your Hyundai dealer.

Santa Fe 2.4

After-sales

Every Hyundai comes with a full after-sales service that includes the UK's first five year warranty across an entire range, Hyundai RAC Assistance* and vehicle security registration.

Five year warranty

Like every Hyundai, the Santa Fe is manufactured in one of the most advanced plants in the world, to high standards of dependability and durability, so we are happy to be the first manufacturer in the UK to offer a five year, unlimited mileage warranty* across our entire range, transferable to a new owner. Please ask your local Hyundai dealer for full details.

Hyundai RAC Assistance

Something as minor as a puncture or a flat battery can turn into a major problem, but, under an exclusive three year plan, as a Hyundai driver you can count on Hyundai RAC Assistance* to come to your rescue. The plan offers a 24-hour telephone helpline, roadside assistance and rescue and recovery – even at home.

Anti-perforation warranty

All Hyundai cars are protected by a six year anti-perforation warranty which covers corrosion originating from the inside surface of the car.

Owners' insurance scheme

A preferential insurance scheme is available to all owners of new and used Hyundai cars. Among its special features are:

- Special low rates for owners of Hyundai cars
- A no-claims discount of up to 65 per cent
- New replacement car cover
- Free European cover for up to 50 days
- Flexible payment terms

Security services

To deter thieves, windscreen, rear screen and main door glass are marked with a unique identification number and each car's details are added to the International Security Register. This service provides a visible and proven deterrent to car theft.

Full details about the conditions governing all these schemes are available from Hyundai dealers.

* Vehicles used for hire and reward or commercial uses are covered by a five year, 100,000 mile warranty which does not include Hyundai RAC Assistance. To retain full warranty cover and, where appropriate, Hyundai RAC Assistance, regular servicing of the vehicle in compliance with the maintenance schedule is necessary. This is chargeable to the customer.

Colours

The elegant styling of the Hyundai Santa Fe is enhanced by striking colours and paint finishes. Metallic and mica finishes, which are standard on all models, have an extra lustre achieved by including in the paint either aluminium flake particles, for a metallic effect, or aluminium flakes and mica particles, for a mica finish.
